OKALOOSA COUNTY DISTRICT SCHOOL BOARD MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the Okaloosa County District School Board has prepared the following discussion and analysis of financial activities for the fiscal year ended June 30, 2008. The intent of this discussion and analysis is to (a) assist the reader in focusing on significant financial issues, (b) provide an overview and analysis of the District's financial activities, (c) identify changes in the District's financial position, (d) identify material deviations from the approved budget, and (e) highlight significant issues in individual funds. Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements and notes to the financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

1. Government-wide financial statements.
2. Fund financial statements.
3. Notes to the financial statements.

Government-wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the Primary Government presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in three categories:

- Governmental activities – This represents most of the District's services including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- Business-type activities – The District does not have any business-type activities.
- Component units – The District presents three separate legal entities in this report including the Okaloosa Academy, Inc. - Charter School; the Liza Jackson Preparatory School – Charter School; and the Okaloosa Public School Foundation, Inc. Although legally separate organizations, the component units are included in this report because they meet the criteria for inclusion provided by generally accepted accounting principles.
- The Okaloosa School Board Leasing Corporation was formed to facilitate the financing for the acquisition of facilities and equipment for the District. Due to the substantive economic relationship between the School Board and the Leasing Corporation, the Leasing Corporation has been included as an integral part of the primary government.

Over a period of time, changes in the District's net assets are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets including its school buildings and administrative facilities.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements.

All of the District's funds may be classified within one of two broad categories:

- Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial

statements. However, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources as well as balances of spendable resources available at the end of the fiscal year.

The governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

The governmental funds balance sheet and the statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds, not the District as a whole. The District's major funds are the General Fund, and Capital Projects – Capital Improvement Tax Construction Fund, and Capital Projects - Other Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. A budgetary comparison statement has been provided for the General Fund and major Special Revenue Fund – Other to demonstrate compliance with the budget.

- Fiduciary Funds – Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District uses an agency fund to account for resources held for student activities groups and for resources held for Employees IRS Section 125 Cafeteria Plan.

Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The following is a summary of the District's net assets as of June 30, 2008, as compared to June 30, 2007:

Net Assets, End of Year

	Governmental Activities		
	6/30/2007	6/30/2008	Increase (Decrease)

Total Net Assets	<u>\$ 213,984,75</u>	<u>\$ 222,777,926</u>	<u>\$ 9,276,851</u>

The largest portion of the District's net assets (56.79% in fiscal year 2007-2008 and 40% in fiscal year 2006-2007) reflects its investment in capital assets (e.g., land, buildings, furniture and equipment), less any related debt still outstanding. The District's investment in capital assets net of debt increased ~~\$39,736,734.47~~ or 45.79%. The increase in investment in capital assets net of debt is primarily related to the decrease in long-term debt. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

The restricted portion of the District's net assets is subject to external restrictions on how they may be used. The District's unrestricted net asset increased ~~\$2,407,951.23~~, in fiscal year 2007-2008.

Instructional expenses represent 56.95 percent of total governmental expenses in the 2007-2008 fiscal year as compared to 58 percent in fiscal year 2006-2007. Instructional expenses increased

by approximately \$3,224,529.05, or 2.01 percent versus an increase of \$9,740,599.55, or 6.47 percent, in fiscal year 2006-2007. The increase in instructional expenditures is due mainly to an increase in salaries for instructional staff, an increase in the number of classroom teachers as a result of Class Size Reduction, and an increase in Compensated Absences.

Facilities Acquisition and Construction expenses increased \$8,971,571.98, or 80.6 percent as a result of an increase of repairs and renovations projects as compared to 2006-2007.

The District received 52.69 percent of total revenues from local sources, including funds received from property tax levies and interest revenues. State funds accounted for 38.9 percent of total funds received, while Federal funds contributed 8.41 percent. Governmental fund revenues totaled \$296,884,559.05, an increase of approximately \$2,971,872.40, or 1.01 percent. Funds received from local sources were \$4,646,637.82 more than those received during the 2006-2007 fiscal year, funds received from State decreased by \$239,453.98, and Federal sources decreased by \$1,435,311.44, respectively.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Major Governmental Funds

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unreserved fund balance was \$10,684,428.42, while the total fund balance was \$50,641,397.73. For fiscal year 2006-2007, unreserved fund balance was \$11,548,576, while the total fund balance was \$47,461,145. The unreserved fund balance decreased by \$864,147.58, in fiscal year 2007-2008 while the total fund balance increased by \$3,180,252.73, as compared to an increase in fiscal year 2006-2007 in unreserved fund balance of \$1,690,128, and an increase in total fund balance of \$2,752,371.

Key factors in this growth are as follows:

- State revenues increased approximately \$2,872,910.34, in the current fiscal year primarily due to the impact of the increase in the local property tax base on the Florida Education Finance Program (FEFP). The FEFP formula utilizes student enrollment data and is designed to maintain equity in funding across all Florida school districts, taking into consideration the school district's funding ability based on the local property tax base. As property values increase, the required local effort contribution in the FEFP generally increases the amount which local property taxes must generate.
- Local revenues increased approximately \$2,220,388.85, in the current year as compared to an increase of \$20,513,922, in fiscal year 2006-2007. The increase is primarily due to the increase in local property values.

The Capital Projects – Capital Improvement Tax Construction Tax Fund has a total fund balance of \$23,005,644.54, all of which is restricted for the acquisition, construction, and maintenance of capital assets. This is a decrease of \$4,026,039.82, as compared to total fund balance for fiscal year 2006-2007 of \$27,031,684.36. The fund balance decreased in the current year due to increasing maintenance expenditures and in spite of an increase in local capital improvement tax revenues of \$1,755,214.45.

The Capital Projects – Other Fund has a total fund balance of \$44,970,375.60, all of which is restricted for the acquisition and construction of capital assets and is primarily comprised of the remaining proceeds of the 2003 Certificates of Participation, 2006 Certificates of Participation, and 2007 Certificates of Participation. This is a decrease of \$25,899,869.87, as compared to total fund balance for fiscal year 2006-2007 of \$70,870,245.47. The fund balance decreased in the current year due to the construction of a new elementary and a new middle school.

BUDGET VARIANCES IN THE GENERAL FUND

The District's budgets are prepared and amendments are made according to Florida law. The most significant budgeted fund is the General Fund.

During the course of the 2007-2008 fiscal year, the District amended its General Fund budget several times, which resulted in an increase in total appropriations, excluding reserves, amounting to \$3,847,141.14, or 1.56 percent. At the same time, final budgeted revenues, excluding beginning fund balance, were less than the original budgeted amounts by \$2,937,884.15, or 1.29 percent. This resulted in a final budgeted ending fund balance of \$5,864,164.13, or 16.01 percent less than the ending fund balance included in the original budget. The decrease in budgeted ending fund balance is primarily a result of the appropriation of project reserves for Lottery-School Recognition and Supplemental Academic Instruction during the fiscal year.

Actual revenues were \$1,545,429.17 or less than 1 percent more than the final budgeted amounts, whereas actual expenditures were \$19,336,101.24, less than the final budgeted amounts. Positive budget variances occurred in all functions. The ending fund balance exceeded the estimated fund balance contained in the final amended budget by \$19,871,530.41.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's investment in capital assets for its governmental and business-type activities as of June 30, 2008, amount to \$213,645,507.13 (net of accumulated depreciation), as compared to \$178,058,772.66, in fiscal year 2006-2007. The increase is primarily due to an increase in the capital assets completed and purchased during the fiscal year. The investment in capital assets includes land, improvements other than buildings, buildings and fixed equipment, furniture, fixtures and equipment, motor vehicles, property under capital lease, construction in progress, and computer software.

Major capital asset events during the current fiscal year included the following:

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES**

For the Fiscal Year Ended June 30, 2008

Net Change in Fund Balances - Governmental Funds \$ (27,115,076.72)

Amounts reported for *governmental activities* in the statement of activities are different because:

Capital outlays are reported in governmental funds as an expenditure. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeds depreciation expense in the current period. 39,423,297.43
3,573,749.32
(7,719,714.80)
35,277,331.95

The net effect of miscellaneous transactions involving capital assets (i.e. donations and disposals) is to increase capital assets.

CE #3a	130,103.62
CE #3f	(8,050.20)
CE #3g	11,390.00
CE #3i	150.00
CE #3n	190,652.47
CE #3m	(6,150.00)
CE #3o	(4,193.42)
CE #3p	<u>(4,499.95)</u>

309,402.52

Revenue for the transfer of assets to Titan Corporation provides current financial resources to governmental funds, but reduces long-term receivable in the statement of net assets. (937,928.28)

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of principal on notes, bonds, and certificates of participation are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which the debt proceeds exceed the payments in the current period. 4,375,000.00
690,000.00
5,065,000.00

In the statement of activities, certain operating expenses -compensated absences and special termination benefits - are measured by the amounts earned during the year. However, expenditures for these items are measured by the amount of financial resources used (essentially, the amount paid). This is the amount which accrued special termination benefits increased. (1,240,949.95)

In the statement of activities, other post employment benefit obligations is now required to be reported as a liability pursuant to GASB #45 which requires the cost of other postemployment benefits (OPEB) be recognized in the period earned rather than in the future when paid. (186,000.00)

In the statement of activities, certain operating expenses - insurance claims - include additional amounts for increases in long-term insurance claims liabilities. However, expenditures for these items are measured by the amount of financial resources used (essentially, the amount paid). This is the amount which estimated insurance claims liability increased. (955,000.00)

Change in Net Assets of Governmental Activities \$ 10,216,779.52

OKALOOSA COUNTY DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2008

Exhibit D-1
DOE Page 18

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- ***Reporting Entity***

The District School Board of Okaloosa County has direct responsibility for operation, control, and supervision of Okaloosa County District schools and is considered a primary government for financial reporting. The Okaloosa County School District is considered part of the Florida system of public education. The governing body of the school district is the Okaloosa County District School Board, which is composed of five elected members. The elected Superintendent of Schools is the executive officer of the School Board. Geographic boundaries of the District correspond with those of Okaloosa County.

Criteria for determining if other entities are potential component units which should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the District School Board is financially accountable and other organizations for which the nature and significance of their relationships with the School Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete.

Based on the application of these criteria, the following component units are included within the District School Board's reporting entity:

- **Blended Component Units**. The Okaloosa School Board Leasing Corporation was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in Note 6. Due to the substantive economic relationship between the Okaloosa County District School Board and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.
- **Discretely Presented Component Units**. The component units columns in the basic financial statements, Exhibits B-1 and B-2, include the aggregate financial data of the District's other component units as follows:

The Okaloosa Public Schools Foundation, Inc., is a separate not-for-profit corporation organized and operated as direct-support organizations under Section 1001.453, Florida Statutes, to receive, hold, invest, and administer property and to make expenditures to or for the benefit of the District. At the time of this report, an audit of the Okaloosa Public Schools Foundation, Inc., for the fiscal year ended June 30, 2008, has been completed.

Charter schools are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not for Profit Corporation Act. The District is the sponsor for each of the following charter schools and is responsible for monitoring and reviewing their progress toward meeting the goals established in

OKALOOSA COUNTY DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS

the charters. The District entered into a charter with the following schools pursuant to Section 1002.33, Florida Statutes:

- The Okaloosa Academy, Inc., was established to provide an alternative educational system for “at risk” students. The Academy is a separate not-for-profit entity with a separate board of directors. At the time of this report, an audit for the fiscal year ended June 30, 2008, has not been performed.
- The Liza Jackson Preparatory School, Inc. was established to provide a preparatory program of education for students. The School is a separate not-for-profit entity with a separate board of directors. At the time of this report, an audit for the fiscal year ended June 30, 2008, has not been performed.
- ***Basis of Presentation***

Government-wide Financial Statements – Government-wide financial statements, including the statement of net assets and statement of activities, present information about the District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component units.

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District’s governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expenses associated with instruction and the District’s transportation and maintenance departments are allocated to the instruction, transportation, and maintenance of plant functions, while remaining depreciation expenses are not readily associated with a particular function and are reported as unallocated.

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements.

Fund Financial Statements – Fund financial statements report detailed information about the District in the governmental and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental funds financial statements differ from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

OKALOOSA COUNTY DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2008

The District reports the following major governmental funds:

- General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Capital Projects – Public Education Capital Outlay Fund – to account for the financial resources allocated by the Public Education Capital Outlay and Debt Service Trust Fund to be used for capital outlay needs, including new construction, renovation and remodeling projects.
- Capital Projects – Local Capital Improvement Tax Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and debt service payments.
- Capital Projects – Other Fund – to account for various financial resources generated by the issuance of certificates of participation and other moneys set aside by the Board for educational capital outlay needs, including new construction and renovation and remodeling projects.

Additionally, the District reports the following fund type:

- Agency Funds – to account for financial resources of the District's pre-tax flexible benefits plan and for the school internal funds, which are used to administer moneys collected at several schools in connection with school and student athletic, class, and club activities.
- ***Basis of Accounting***

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recognized when earned, and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

The District considers revenues to be available if they are collected within 30 days of the end of the fiscal year. When grant terms provide that the expenditure of resources is the prime factor for

OKALOOSA COUNTY DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2008

determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for principal and interest on long term debt, claims and judgments, and compensated absences, which are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The charter schools are accounted for as governmental and follow the same accounting model as the District's governmental activities.

The Okaloosa Public Schools Foundation, Inc., shown as a discretely presented component unit, is accounted for under the not-for-profit basis of accounting and uses the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred.

- ***Deposits and Investments***

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depositary insurance and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

Investments consist of amounts placed with the State Board of Administration for participation in the Local Government Surplus Funds Trust Fund investment pool created by Section 218.405, Florida Statutes, and those made locally. The investment pool operates under investment guidelines established by Section 215.47, Florida Statutes. The District's investment in the Local Government Surplus Funds Trust Fund, a Securities and Exchange Commission Rule 2a7-like external investment pool, is reported at amortized cost.

Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

- ***Inventories***

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories, except for United States Department of Agriculture, are stated at cost which approximates the first-in, first-out basis. Surplus commodities are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. Although the costs of inventories are recorded as expenditures when used rather than purchased, a fund balance reserve is established at fiscal year-end to indicate that inventories do not constitute available expendable resources even though inventories are a component of current assets.

- ***Capital Assets***

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so

OKALOOSA COUNTY DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2008

acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Capital assets are depreciated using the straight-line methodology over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>		
Improvements Other Than Buildings	8	-	40 years
Buildings and Fixed Equipment	10	-	50 years
Furniture, Fixtures, and Equipment	3	-	15 years
Motor Vehicles	5	-	10 years
Audio Visual Materials and Computer Software	3	-	5 years

Current-year information relative to changes in capital assets is described in a subsequent note.

- ***Long-Term Liabilities***

Long-term obligations that will be financed from resources to be received in the future by governmental fund types are reported as liabilities in the government-wide statement of net assets.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are recorded as liabilities to the extent that it is probable that the benefits will result in termination payments.

Changes in the District's long-term debt for the current year are reported in a subsequent note.

- ***State Revenue Sources***

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of nine months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the

District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is reserved for the unencumbered balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Education Capital Outlay and Classrooms for Kids funds as deferred revenue until such time as an encumbrance authorization is received.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

- *District Property Taxes*

The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Okaloosa County Property Appraiser, and property taxes are collected by the Okaloosa County Tax Collector.

The School Board adopted the 2007 tax levy on September 10, 2007. Tax bills are mailed in October; and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to four percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment and State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental funds financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Okaloosa County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

• ***Federal Revenue Sources***

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

2. BUDGETARY COMPLIANCE AND ACCOUNTABILITY

• ***Budgetary Information***

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board Education rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for actual transactions.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end, and encumbrances outstanding are honored from the subsequent year's appropriations as described in a subsequent note on reserve for encumbrances.

• Interest Rate Risk

Section 218.415(17), Florida Statutes, limits investment maturities to provide sufficient liquidity to pay obligations as they come due. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

• Credit Risk

Section 218.415(17), Florida Statutes, limits investment in money market funds to Securities and Exchange Commission registered money market funds with the highest credit rating from a nationally recognized rating agency, and investments in interest-bearing time deposits to qualified public depositories, as defined in Section 280.02, Florida Statutes. The District's investment policy limits investments to those prescribed by Florida Statutes and State Board of Education rules.

The District's investments in the State Board of Administration Debt Service Accounts and State Board of Administration Local Government Surplus Funds Trust Fund investment pool are to provide for debt service payments on bond debt issued by the State Board of Education for the benefit of the District. The District relies on policies developed by the State Board of Administration for managing credit risk for this account. The investments in the State Board of Administration Debt Service Accounts and State Board of Administration Local Government Surplus Funds investment pool were unrated.

The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the leases and to provide for the rent payments through to term, the District may be required to surrender the sites included under the ground leases for the benefit of the securers of the Certificates for a period of time specified by the arrangements which may be up through the last day of the ground lease terms.

13. STATE RETIREMENT PROGRAM

- *Defined Benefit Plan*

All regular employees of the District are covered by the Florida Retirement System, a State-administered cost-sharing, multiple-employer, defined benefit retirement plan (Plan). Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein Plan eligibility, contributions, and benefits are defined and described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of FRS.

Benefits in the plan vest at six years of service. All members are eligible for normal retirement benefits at age of 62 or at any age after 30 years of service, which may include up to 4 years of credit for military service. The Plan also includes an early retirement provision. But imposes a penalty for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments.

A Deferred Retirement Option Program (DROP), subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the plan to defer receipt of monthly benefit payments while continuing employment with a Florida Retirement System employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the Florida Retirement System Trust Fund and accrue interest.

• ***Funding Policy***

The contribution rates for Plan members are established, and may be amended, by the State of Florida. During the 2007-2008 fiscal year, contribution rates were as follows:

Class or Plan	Percent of Gross Salary	
	Employee	Employer (A)
Florida Retirement System, Regular	0.00%	9.85%
Florida Retirement System, Elected County Officers	0.00%	16.53%
Teachers' Retirement System, Plan E	6.25%	11.35%
Deferred Retirement Option Program - Applicable to Members From All of the Above Classes or Plans	0.00%	10.91%
Florida Retirement System, Reemployed Retiree	(B)	(B)

Notes: (A) Employer rates include the post-employment health insurance of 1.11 percent. The FRS Investment Plan administration fee is 0.05 percent.

(B) Contribution rates are dependent upon the retirement class in which reemployed.

The District's liability for participation is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District's contributions, including employee contributions, for the fiscal years ended June 30, 2006, June 30, 2007, and June 30, 2008, totaled \$10,921,064, \$14,687,817.98, and \$15,339,980.40 respectively, which were equal to the required contributions for each fiscal year.

• ***Defined Contribution Plan***

Effective July 1, 2002, the Public Employee Optional Retirement Program (PEORP) was implemented as a defined contribution plan alternative available to all FRS members in lieu of the defined benefit plan. Employee contributions are defined by law, but ultimate benefit depends in part on the performance of investment funds. The PEORP is funded by employer contributions that are based on salary and membership class (Regular Class, Special Risk Class, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. There were 346 District participants in the PEORP during the 2006-2007 fiscal year. Required employer contributions made to the program for the fiscal year ending June 30, 2008, totaled \$1,133,589.

• ***Pension Reporting***

The Plan's financial statements and other supplemental information are included in the comprehensive annual financial report of the State of Florida which may be obtained by contacting the Florida Department of Financial Services. Also, an annual report on FRS, which includes its financial statements, required supplemental information, actuarial report, and other relevant information may be obtained from the State of Florida, Division of Retirement.

14. SPECIAL TERMINATION BENEFITS

School Board policy provides for the payment of retirement incentive bonuses to employees who are eligible to retire under an existing State retirement system and 10 years of creditable service earned in the District, if they retire no later than June 30 of their first year of normal retirement eligibility. The total paid by the District pursuant to this retirement incentive during the 2007-2008 fiscal year was \$182,787.97.

In addition, employees who are eligible for payment of 100 percent of their unused sick leave and who have more than 50 days of sick leave may formally resign for retirement purposes a maximum of three years in advance of the date of their first opportunity for normal retirement and receive payment for accumulated sick leave in up to three annual payments. The payments are deposited into the District's 401(a) Plan on behalf of the employees.

15. POSTEMPLOYMENT HEALTH CARE BENEFITS

Effective for the 2007-2008 fiscal year, the District implemented Governmental Accounting Standards Board Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, for certain postemployment health care benefits provided by the District. The requirements of this Statement are being implemented prospectively, with the actuarially determined liability of \$17,078,000 at the July 1, 2007 date of transition amortized over 30 years. Accordingly, for financial reporting purposes, no liability is reported for the postemployment health care benefits liability at the date of transition.

- *Plan Description*

Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District, and eligible dependents, may continue to participate in the District's health and hospitalization plan for medical, and prescription drug coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. Additionally, certain retirees receive insurance coverage at a lower (explicitly subsidized) premium rate than active employees. The benefits provided under this defined benefit plan are provided for employees actively enrolled in the District health care plans at the time of retirement. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The rates paid by retirees eligible for Medicare are reduced by the Medicare premium.

- *Funding Policy*

The District has not advance-funded or established a funding methodology for the annual Other Postemployment Benefit (OPEB) costs or the net OPEB obligation. For the 2007-2008 fiscal year, 586 retirees received postemployment health care benefits. The District provided required contributions of \$966,000 toward the annual OPEB cost, comprised of benefit

payments made on behalf of retirees for claims expenses (net of reinsurance), administrative expenses, and reinsurance premiums, and net of retiree contributions totaling \$1,152,000.

- ***Annual OPEB Cost and Net OPEB Obligations***

The following table shows the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation:

Required Actuarial Information (GASB STATEMENT NO. 45)	
Employer FYE June 30	2008
Normal Cost (service cost for one year)	\$ 445,000
Amortization of Unfunded Actuarial Accrued Liability	652,000

Contributions Made	(966,000)
Increase (decrease) in Net OPEB Obligation	\$ 186,000

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2008 (first year of implementation), was as follows:

Fiscal Year Ending	Annual OPEB Cost	Amount Contributed	Percentage of Annual OPEB Cost Contributed		Net OPEB Obligations
			OPEB Cost Contributed	Net OPEB Obligations	
6/30/2007	\$ -	\$ -	0	\$ -	
6/30/2008	\$ 1,152,000	\$ 966,000	83.9%	\$ 186,000	

- ***Funded Status and Funding Progress***

As of June 30, 2008, the actuarial accrued liability for benefits was \$17,078,000, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$17,078,000. The covered payroll (annual payroll of active participating employees) was \$102,423,962 for the 2007-08 fiscal year, and the ratio of unfunded actuarial accrued liability to the covered payroll was 16.67 percent.

OKALOOSA COUNTY DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS

• ***Actuarial Methods and Assumptions***

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. Projections of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's initial OPEB actuarial valuation as of July 1, 2007, used the Unit Credit actuarial method with amortization on a level percentage basis, to estimate the unfunded and funded actuarial liability as of June 30, 2008. The Unit Credit actuarial method provides the most logical correlation between accruing and expensing of the retiree benefits. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 5 percent discount rate. The actuarial assumptions also included a payroll growth rate of 4 percent per year, and an annual healthcare cost trend rate of 10 percent initially for the 2007-2008 fiscal year, reduced by 1 percent per year, to an ultimate rate of 5 percent after five years. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2008, is 29 years.

17. OPERATING LEASE COMMITMENTS

The District leases their computer hardware assets. The lease expires on December 31, 2013. Total expense under this operating lease for the fiscal year ended June 30, 2008 was \$ 6,977,349.59. The following table represents future minimum lease payments:

18. RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Coverage for these risks is provided for in a variety of different ways. For most general liability claims, the District relies upon the sovereign immunity limits of Section 768.28, Florida Statutes, which limits the District's liability to \$100,000 for each claimant and \$200,000 in any one occurrence; however, the District did purchase a commercial general liability policy for certain special events. The District is, to some extent, also self-insured for property losses, worker's compensation, automotive liability, crime, and errors and omissions. To limit its exposure to property losses, the District purchased excess property insurance with varying deductibles, sub-limits, and policy maximums through the Florida School Boards Insurance Trust (FSBIT). FSBIT is a self-insurance fund for Florida school boards established under the authority set forth in Section 1001.42, Florida Statutes. Likewise, the District limited its exposure for worker's compensation, automotive liability, crime, and errors and omissions by purchasing commercial insurance policies which covers losses exceeding specified limits up to certain policy maximums. Health, life, and dental insurance coverage for District employees are also provided through commercially purchased insurance.

OKALOOSA COUNTY DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2008

Settled claims resulting from the risks described above have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District reports all of its risk management activities in the General Fund. At June 30, 2008, an actuarially determined liability of \$4,332,000 (\$107,000 for the property program, undiscounted, and \$4,225,000 for the casualty program, discounted using a 4 percent rate of return) is reported as estimated claims payable on the District's statement of net assets. The District has reserved \$4,332,000 of the fund balance in the General Fund to fund future insurance claims.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance programs:

Fiscal Year	Beginning-of-Fiscal-Year Liability	Current-Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year-End
2006-07	\$ 4,689,000.00	\$ 1,296,622.25	\$ (1,693,622.25)	\$ 4,292,000.00
2007-08	4,292,000.00	2,775,523.56	(2,735,523.56)	4,332,000.00

19. LITIGATION

The District is involved in several pending and threatened legal actions. In the opinion of the District management, after consulting with legal counsel, the range of potential loss from all such claims and actions should not materially affect the financial condition of the District.
