

# OKALOOSA COUNTY SCHOOL DISTRICT Decentralized FTE Reserves School Year 2004-2005

Decentralized FTE Reserves consists of a revenue allocation and a site-specific reserve to absorb changes in FTE projections, Base Student Allocation, District Cost Differential, etc.

In order to comply with School Board Policies and Procedures, Florida Statutes, union contracts, and sound fiscal management, the budget process must begin long before the legislative session ends. Therefore, the District has chosen to use the Governor's Proposed Budget as the starting point for allocations. With the budget process relying on the Governor's Proposed Budget rather than waiting until after the legislative session has ended and all the factors are known, there are some potential changes which can occur that may affect the District's state funding. Here are just a few examples:

- (1) changes in program cost factors used by the Governor
- (2) changes in the District Cost Differential used by the Governor
- (3) changes in the Base Student Allocation used by the Governor
- (4) changes can occur in categorical programs which cause increases or decreases in funding OR change the restrictions on the use of funds.

For example, the District Cost Factor for Okaloosa County in the Governor's Proposed Budget for FY 2003-2004 was 0.9531. However, the actual DCD for FY 2003-2004 ended up being 0.9482.

What can you expect? CHANGES. We just don't know what the changes will be. Therefore, we have set aside a reserve to absorb some of the changes.

Project Number 2004-2005:	
Decentralized FTE Reserve	3004
Allocation Method:	\$53.66 per adjusted projected WFTE at each school and district operated program. In addition, High Schools whose program 103 was adjusted for less than full-time students will receive an additional reserve amount equivalent to the amount of the reduction in their program 103. This amount has been added to their decentralized reserves.
Allocation Amount:	Total Reserve = \$ 3,050,977 (\$1,698,633.00 <u><i>Plus</i></u> \$1,352,344)
Example: Edwins Elementary Decentralized FTE Reserve	\$53.66 X 468.02 = \$25,113.95 Rounded to Nearest \$ = \$25,114
Example: Choctawhatchee High A. Decentralized FTE Reserve	\$53.66 X 1,910.27 = \$102,505.09 Rounded to Nearest \$ = \$102,505
B. Decentralized FTE Reserves - Les	ss than Full-Time Students (High Schools Only) (Program Cost Factor X BSA X DCD X 91%)
(74.52 UFTE X 1.14 Program Rounded to Nearest \$ = \$270,	Cost Factor X \$3,683.73 BSA X .9482 DCD X .91% = \$270,026.77) 027

For the initial budget process, the allocation for your school will be placed in the following:

Project Name	Fund	Function	Object Code	Cost Center	Project Number
Decentralized FTE Reserve	1010	9890	0994	Your Cost Center	3004

The allocation for Decentralized FTE Reserve will be placed in a blocked project. The school will not be able to make budget amendments or encumber funds.

The reduction in High Schools program 103 related to less than full-time students was based on data provided by MIS. In the event the decrease in WFTE does not occur, the schools will receive an adjustment after the October 2004 FTE survey.

The District will adjust each school and district operated program's allocation and appropriation as changes occur. A full explanation and copy of the budget amendment will be sent to the affected cost center's principal.
