Excerpt from The 2005 Florida Statutes

1006.40 Use of instructional materials allocation; instructional materials, library books, and reference books; repair of books.--

- (3)(a) Each district school board shall use the annual allocation for the purchase of instructional materials included on the state-adopted list, except as otherwise authorized in paragraphs (b) and (c). No less than 50 percent of the annual allocation shall be used to purchase items which will be used to provide instruction to students at the level or levels for which the materials are designed.
- (b) Up to 50 percent of the annual allocation may be used for the purchase of instructional materials, including library and reference books and nonprint materials, not included on the state-adopted list and for the repair and renovation of textbooks and library books.
- (c) District school boards may use 100 percent of that portion of the annual allocation designated for the purchase of instructional materials for kindergarten, and 75 percent of that portion of the annual allocation designated for the purchase of instructional materials for first grade, to purchase materials not on the state-adopted list.
- (4) The funds described in subsection (3) which district school boards may use to purchase materials not on the state-adopted list shall be used for the purchase of instructional materials or other items having intellectual content which assist in the instruction of a subject or course. These items may be available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, replacements for items which were part of previously purchased instructional materials, consumables, learning laboratories, manipulatives, electronic media, computer courseware or software, and other commonly accepted instructional tools as prescribed by district school board rule. The funds available to district school boards for the purchase of materials not on the state-adopted list may not be used to purchase electronic or computer hardware even if such hardware is bundled with software or other electronic media, nor may such funds be used to purchase equipment or supplies. However, when authorized to do so in the General Appropriations Act, a school or district school board may use a portion of the funds available to it for the purchase of materials not on the state-adopted list to purchase science laboratory materials and supplies.
