

SCHOOL DISTRICT OF OKALOOSA COUNTY
INSTRUCTIONAL COACH PROGRAM
READING INSTRUCTION
FISCAL YEAR 2017-2018
AS OF JUNE 2017

The Final Conference Report contains a specific line item allocation for Reading Instruction. The District will use these funds to provide ongoing embedded professional development support for schools through Instructional Coaches. Reading Instruction, in conjunction with the federal program "Title II - Part A" and/or Class Size Reduction flexible funding (CSR - Instructional Coaches - Project 4104), will place full or part-time Instructional Coaches in elementary, middle, and high schools as needed. The embedded professional development activities provided by the Instructional Coaches are directly related to student achievement issues and reflect intensive efforts to increase achievement through the more highly developed cognitive base of teachers in the area of literacy.

Project Number: 6123

Allocation Method: 50% or 100% Instructional Coach Unit for qualifying school
in conjunction with Title II and/or CSR - Instructional Coaches

Allocation Amount: 50% or 100% Instructional Coach Position Multiplied by
Average Salary for Instructional Coach Unit

Average Instructional Coach Salary = **\$78,200**

<i>Example: Edwins Elementary</i>		<i>Reading Instruction</i>
Units	Average Salary	Allocation
0.80 x	\$78,200 = \$	62,560

The Instructional Coach positions are subject to change.
The District will fill these positions.

NOTE:

ALLOCATIONS ARE SUBJECT TO CHANGE.

Excerpt from The 2016 Florida Statutes

1011.62(9) Research-Based Reading Instruction Allocation

(9) RESEARCH-BASED READING INSTRUCTION ALLOCATION.

- (a) The research-based reading instruction allocation is created to provide comprehensive reading instruction to students in kindergarten through grade 12. For the 2016-2017 fiscal year, in each school district that has one or more of the 300 lowest-performing elementary schools based on the state reading assessment, priority shall be given to providing an additional hour per day of intensive reading instruction beyond the normal school day for each day of the entire school year for the students in each school. For the 2016-2017 fiscal year, designation of the 300 lowest-performing elementary schools shall be based on the 2015-2016 state reading assessment. Students enrolled in these schools who have level 5 assessment scores may participate in the additional hour of instruction on an optional basis. Exceptional student education centers may not be included in the 300 schools. The intensive reading instruction delivered in this additional hour and for other students shall include: research-based reading instruction that has been proven to accelerate progress of students exhibiting a reading deficiency; differentiated instruction based on student assessment data to meet students' specific reading needs; explicit and systematic reading development in phonemic awareness, phonics, fluency, vocabulary, and comprehension, with more extensive opportunities for guided practice, error correction, and feedback; and the integration of social studies, science, and mathematics-text reading, text discussion, and writing in response to reading.
- (b) Funds for comprehensive, research-based reading instruction shall be allocated annually to each school district in the amount provided in the General Appropriations Act. Each eligible school district shall receive the same minimum amount as specified in the General Appropriations Act, and any remaining funds shall be distributed to eligible school districts based on each school district's proportionate share of K-12 base funding.
- (c) Funds allocated under this subsection must be used to provide a system of comprehensive reading instruction to students enrolled in the K-12 programs, which may include the following:
 - 1. The provision of an additional hour per day of intensive reading instruction to students in the 300 lowest-performing elementary schools by teachers and reading specialists who are effective in teaching reading.
 - 2. Kindergarten through grade 5 reading intervention teachers to provide intensive intervention during the school day and in the required extra hour for students identified as having a reading deficiency.
 - 3. The provision of highly qualified reading coaches to specifically support teachers in making instructional decisions based on student data, and improve teacher delivery of effective reading instruction, intervention, and reading in the content areas based on student need.
 - 4. Professional development for school district teachers in scientifically based reading instruction, including strategies to teach reading in content areas and with an emphasis on technical and informational text.
 - 5. The provision of summer reading camps for all students in kindergarten through grade 2 who demonstrate a reading deficiency as determined by district and state assessments, and students in grades 3 through 5 who score at Level 1 on the statewide, standardized reading assessment or, upon implementation, the English Language Arts assessment.

Excerpt from The 2016 Florida Statutes

1011.62(9) Research-Based Reading Instruction Allocation (Continued)

6. The provision of supplemental instructional materials that are grounded in scientifically based reading research.
 7. The provision of intensive interventions for students in kindergarten through grade 12 who have been identified as having a reading deficiency or who are reading below grade level as determined by the statewide, standardized assessment.
- (d) Annually, by a date determined by the Department of Education but before May 1, school districts shall submit a K-12 comprehensive reading plan for the specific use of the research-based reading instruction allocation in the format prescribed by the department for review and approval by the Just Read, Florida! Office created pursuant to s. [1001.215](#). The plan annually submitted by school districts shall be deemed approved unless the department rejects the plan on or before June 1. If a school district and the Just Read, Florida! Office cannot reach agreement on the contents of the plan, the school district may appeal to the State Board of Education for resolution. School districts shall be allowed reasonable flexibility in designing their plans and shall be encouraged to offer reading intervention through innovative methods, including career academies. The plan format shall be developed with input from school district personnel, including teachers and principals, and shall allow courses in core, career, and alternative programs that deliver intensive reading remediation through integrated curricula, provided that the teacher is deemed highly qualified to teach reading or working toward that status. No later than July 1 annually, the department shall release the school district's allocation of appropriated funds to those districts having approved plans. A school district that spends 100 percent of this allocation on its approved plan shall be deemed to have been in compliance with the plan. The department may withhold funds upon a determination that reading instruction allocation funds are not being used to implement the approved plan. The department shall monitor and track the implementation of each district plan, including conducting site visits and collecting specific data on expenditures and reading improvement results. By February 1 of each year, the department shall report its findings to the Legislature.
