1006.40 Use of instructional materials allocation; instructional materials, library books, and reference books; repair of books.

- (1) On or before July 1 each year, the commissioner shall certify to each district school superintendent the estimated allocation of state funds for instructional materials, computed pursuant to the provisions of s. 1011.67 for the ensuing fiscal year.
- (2) Each district school board must purchase current instructional materials to provide each student in kindergarten through grade 12 with a major tool of instruction in core courses of the subject areas of mathematics, language arts, science, social studies, reading, and literature. Such purchase must be made within the first 3 years after the effective date of the adoption cycle unless a district school board or a consortium of school districts has implemented an instructional materials program pursuant to s. 1006.283.
- (3)
 - (a) Except for a school district or a consortium of school districts that implements an instructional materials program pursuant to s. [1006.283](#), each district school board shall use the annual allocation only for the purchase of instructional materials that align with state standards and are included on the state-adopted list, except as otherwise authorized in paragraphs (b) and (c).
 - (b) Up to 50 percent of the annual allocation may be used for:
 1. The purchase of library and reference books and nonprint materials.
 2. The purchase of other materials having intellectual content which assist in the instruction of a subject or course. These materials may be available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, novels, electronic content, consumables, learning laboratories, manipulatives, electronic media, computer courseware or software, and other commonly accepted instructional tools as prescribed by district school board rule.
 3. The repair and renovation of textbooks and library books and replacements for items which were part of previously purchased instructional materials.
 - (c) District school boards may use 100 percent of that portion of the annual allocation designated for the purchase of instructional materials for kindergarten, and 75 percent of that portion of the annual allocation designated for the purchase of instructional materials for first grade, to purchase materials not on the state-adopted list.
 - (d) Any materials purchased pursuant to this section must be:
 1. Free of pornography and material prohibited under s. 847.012.
 2. Suited to student needs and their ability to comprehend the material presented.
 3. Appropriate for the grade level and age group for which the materials are used or made available.

1006.40 Use of instructional materials allocation; instructional materials, library books, and reference books; repair of books. (Continued)

- (4) Each district school board is responsible for the content of all materials used in a classroom or otherwise made available to students. Each district school board shall adopt rules, and each district school superintendent shall implement procedures, that:
 - (a) Maximize student use of the district-approved instructional materials.
 - (b) Provide a process for public review of, public comment on, and the adoption of instructional materials that satisfies the requirements of s. 1006.283(2)(b)8., 9., and 11.
- (5) District school boards may issue purchase orders subsequent to February 1 in an aggregate amount which does not exceed 20 percent of the current year's allocation, and subsequent to April 1 in an aggregate amount which does not exceed 90 percent of the current year's allocation, for the purpose of expediting the delivery of instructional materials which are to be paid for from the ensuing year's allocation. This subsection does not apply to a district school board or a consortium of school districts that implements an instructional materials program pursuant to s. 1006.283.
- (6) In any year in which the total instructional materials allocation for a school district has not been expended or obligated prior to June 30, the district school board shall carry forward the unobligated amount and shall add it to the next year's allocation.
- (7) A district school board or a consortium of school districts that implements an instructional materials program pursuant to s. 1006.283 may use the annual allocation to purchase instructional materials not on the state-adopted list. However, instructional materials purchased pursuant to this section which are not included on the state-adopted list must meet the criteria of s. 1006.31(2), align with state standards adopted by the State Board of Education pursuant to s. 1003.41, and be consistent with course expectations based on the district's comprehensive plan for student progression and course descriptions adopted in state board rule.

1006.40 Use of instructional materials allocation; instructional materials, library books, and reference books; repair of books. (Continued)

- (7) In any year in which the total instructional materials allocation for a school district has not been expended or obligated prior to June 30, the district school board shall carry forward the unobligated amount and shall add it to the next year's allocation.
- (8) Subsections (3), (4), and (6) do not apply to a district school board or a consortium of school districts that implements an instructional materials program pursuant to s. 1006.283 except that, by the 2015-2016 fiscal year, each district school board shall use at least 50 percent of the annual instructional materials allocation for the purchase of digital or electronic instructional materials that align with state standards adopted by the State Board of Education pursuant to s. 1003.41.
