VIRCO 2023 PRODUCT ASSORTMENT

This price list describes Virco's extensive selection of educational and institutional furniture, all of which are made year-round at our factories in Conway, Arkansas, and Torrance, California. Furniture selected from this price list is generally ready to ship in 8 weeks from order acknowledgment except for Quick Ship and Campus Basics items when have a faster lead time as indicated in the price list. Custom orders and orders that require a minimum purchase quantity may require additional manufacturing time. In addition, during the heavy summer months unusually high demand for a specific item may result in longer lead times.

PURCHASE ORDERS

You can send purchase orders via email to orders@virco.com, or by fax. All purchase orders must include: Your complete billing information, including the billing address, the contact person and their phone number (If you know your Virco account number, please provide that as well) Complete shipping information (where the furniture should be sent) including physical address, the contact person and their phone number, and any special delivery requirements (special delivery requests may incur additional shipping charges), and requested delivery date range (extremely important - see below)

The requested delivery date is a required element of the order. Failure to indicate a delivery date will result in the order shipping as soon as it is ready. Indication of a delivery date that is earlier than the stated lead times for the items on the order will result in the order shipping as soon as it is ready. If a specific delivery date is needed, please indicate a range of dates that are acceptable as it may not be possible to deliver on a specific date. If an order cannot be received until a certain date, please indicate a "not before" date, with the understanding that the order can arrive any time after that date and will not necessarily arrive the next day. During our peak season of July and August, delivery dates may be extended due to heavy demand for both product and transportation. Accepting orders as soon as they are ready is the best way to ensure your order is fulfilled.

If you are seeking the fastest delivery times, order products from different groups (Quick Ship Models, Campus Basics Models, Made-to-Order Models) on different purchase orders. Orders with product from mixed groups will be shipped when complete, which will be at the longest model lead time. Orders for Quick Ship models only will be shipped as soon as possible, unless otherwise requested. Due to the quick turnaround of these orders, no shipping notification will be provided. Sorry, but we cannot accept C.O.D. orders. All orders are confirmed with a printed acknowledgement, which is mailed (or e-mailed on request) to the sold-to address within two days after entry. Please check the acknowledgement carefully to ensure that your order has been entered correctly. We will make every effort to accommodate requested delivery dates. Some orders may ship sooner than our stated lead-times, especially during winter, spring and fall. Summer lead-times may extend one or two weeks longer than normal. Please note critical delivery dates, such as openings or special events, on your purchase order. This is essential to help us manage your end user's expectations.

INVOICE TERMS

Virco's invoice terms for credit accounts are 1%, 10 days, or Net 30 days. Customers without a Virco credit line must submit payment at the time of order entry. We also accept major credit cards.

CHANGES OR CANCELLATIONS OF ORDERS

Purchase orders acknowledged by Virco Inc. cannot be changed or cancelled without Virco Inc.'s consent, which consent may be conditioned upon Customer's agreement to pay increased or additional expenses resulting from the requested change or cancellation, including but not limited to a twenty-five percent (25%) cancellation charge if order is cancelled or changed within a minimum of twenty (20) days prior to expected delivery date as acknowledged. Products with custom options cannot be cancelled or returned.

REDELIVERY AND RESTOCKING CHARGES

When consignees refuse or are unable to accept delivered orders, we will charge 100% of the original freight cost plus demurrage charges to redeliver the order. Returned orders are subject to a minimum 20% restocking fee. Merchandise returns can only be accepted with prior authorization from Virco's Customer Service Department; moreover, all returned items must be unused and still in their original packaging. Authorization to return merchandise must be approved by Virco Customer Service no later than 90 days after initial delivery. We do not accept returns of custom-made products, and we will refuse returns that are submitted without prior authorization from Virco Customer Service.

HOW TO CALCULATE YOUR PRICING:

Start with your first column net price (\$0 - \$1,000) to identify all the model numbers you wish to purchase, and multiply the price of each model by the number of units you wish to purchase. This will give you the total value of your order. Then, use this total to identify the proper discount column you will use to obtain the correct net delivered price for each model you will purchase.

Please note: This is also the proper method to identify the correct price for orders that may require inside delivery or full service.

Example:

A customer wishes to purchase 200 - model 12018 stools, Tailgate delivery, one location per purchase order (see page 2).

The 1st column (\$0-\$1,000) is **\$98.67** per unit.

200 stools x **\$98.67 = \$19,734.00**

This order would qualify for column 4 (\$15,001-\$40,000) discount pricing, which is **\$81.51** per stool.

For inside delivery or full service, you must first calculate your order using the **net** Tailgate Delivery price.

For example, to calculate for inside delivery or full service, please use the proper discount from the List Price column:

Example: For inside delivery: \$286.00 (List Price) - 70.1% (Column 4, \$15,001-\$40,000) = **\$85.51**

Example: For full service: \$286.00 (List Price) - 65.8% (Column 4, \$15,001-\$40,000) = **\$97.81**

Net prices shown reflect tailgate delivered prices based on the following discounts from the 2023 F.O.B. Factory Virco Equipment for Educators™ List Price price list:

Customers using U.S. Communities (a subsidiary of OMNIA Partners, Public Sector) are entitled to discounts based on net volume. The proper way to determine the correct pricing column for a given order is as follows:

Manufacturer's Name		Percentage Discount for Manufacturer's Price List by Dollar Volume			
		NET ORDER SIZE	STANDARD DELIVERY (Delivered Tailgate)	INSIDE DELIVERY (No Installation)	FULL SERVICE (Delivered & Installed)
VIRCO INC. ZONE 7 FL, GA, SC	Column 1	\$0 to \$1,000	65.5%	58.6%	20.0%
	Column 2	\$1,001 to \$4,000	66.5%	63.2%	58.1%
	Column 3	\$4,001 to \$15,000	71.0%	68.1%	63.8%
	Column 4	\$15,001 to \$40,000	71.5%	70.1%	65.8%
	Column 5	\$40,001 to \$100,000	72.5%	69.0%	67.0%
	Column 6	\$100,001 to \$250,000	73.9%	72.6%	68.7%
		\$250,001 and up negotiated			

ORDER INFORMATION

At Virco, we're committed to providing you with the highest-quality and most cost-effective delivery services. That's because your complete satisfaction - as well as the safety of our employees and of any other personnel at your facility - is of paramount importance. With that in mind, please be aware of the following IMPORTANT CONDITIONS that apply to Virco delivery services:

- STANDARD DELIVERY is included for every item in this price list. Certain Virco products such as mobile cabinets, mobile tables, teachers desks and storage equipment are too heavy for one person to unload. Standard "tailgate delivery" does not include unloading these or any other products. Please be prepared to have your own personnel meet the truck to unload and move the product to its final location.
- Virco's delivery and installation crews must have complete and unobstructed access to buildings in which they will be working. In the event of new construction, Virco will not install while construction employees or projects are underway; any buildings in which Virco crews will be working must be turned over to the school district or governmental agency. If Virco agrees to perform the installation while construction is underway, additional charges may apply. Installation while contractors are on site can cause delays; and the charge, in these cases, will be \$50.00 per man hour and will be billed to the school district or governmental agency.
- Installation charges include the delivery, set-up and placement of furniture one time only. Virco will not set furniture in place multiple times so that contractors can have sequential access to particular areas of a school. If a contractor moves Virco furniture, for any reason, the contractor will be responsible for returning it to its proper location and will assume full responsibility for any damages as a result of their actions.
- Requests for multiple deliveries due to construction delays will result in additional freight charges. Freight charges will be added to the invoice.
- In rare cases Virco may agree to work under "hard-hat" conditions. In these cases the additional labor charges indicated above will apply. Moreover, hard-hat conditions may delay Virco's attempt to quickly and efficiently perform jobs, and may also incur other charges. These charges will be determined at the job site and will vary from project to project.
- Installation projects have a project scope that includes time required (both in the number of days and hours per day) and the manpower needed. All projects use the calculation of ten-hour work days, five days a week. When construction delays cause Virco crews to work more than ten hours a day, five days a week - or when Virco crews are forced to install a project in fewer days than planned, resulting in more hours worked per day - all overtime charges will be charged back to the school district or governmental agency.

Note: Should Prevailing Wages be required, installation will have to be quoted for specific project.

STEPS TO TAKE WHEN RECEIVING SHIPMENTS

VERIFY COUNT

Make sure you receive as many cartons as are listed on the delivery receipt. If any shortage is discovered, note exactly how many cartons are short on the carrier's delivery receipt and have the driver note the shortage on your copy.

CAREFULLY EXAMINE EACH CARTON FOR DAMAGE

If damage is visible, note this fact on the delivery receipt and have the driver clearly note the damage on your copy. If you suspect that the carton contents may be damaged, insist that the driver remain present while you open the carton and jointly inspect the contents. Any concealed damage discovered should also be noted on the delivery receipt and on your copy. Be sure to retain your copy.

IMMEDIATELY AFTER DELIVERY, OPEN ALL CARTONS AND INSPECT FOR CONCEALED DAMAGE

All cartons should be opened and contents inspected for possible concealed damage.

REPORT ANY PROBLEMS TO VIRCO CUSTOMER SERVICE IMMEDIATELY (800-448-4726)

If damage is found, details should be reported to Virco immediately. According to ICC regulations, failure to report concealed damage within 15 calendar days of the delivery date could result in the carrier denying the claim and any replacement costs may be your responsibility.

STEPS TO TAKE WHEN CARRIER MAKES INSPECTION OF DAMAGED ITEMS

HAVE DAMAGED ITEMS IN THE RECEIVING AREA

Make certain that the damaged items have not been moved from the receiving area. Allow the inspector to inspect the damaged items, cartons, inner packing materials and freight bill. Be sure to retain your delivery receipt since it will be needed as supporting documentation when the claim is filed.

AFTER THE INSPECTOR FILLS OUT THE REPORT, READ IT CAREFULLY BEFORE SIGNING

If you do not agree with any statements made by the inspector on the report, do not sign it. Unless repairs will be completely satisfactory, be sure the inspector requests replacement on the inspection report. A new item can be ordered only if the report specifies "replace."

CONTINUE TO RETAIN DAMAGED MERCHANDISE

Even though the inspection has been completed, damaged items cannot be used or disposed of without written permission from the carrier or Virco. After the claim has been settled, the carrier will either pick-up the damaged items or send a letter asking you to dispose of the merchandise.

PARAMETER® SERIES

Virco's Parameter® Series includes a variety of desks and workstations for teachers, principals, administrators and office use. Selected models have a single- or double-pedestal configuration; other models come without pedestals. Parameter also includes help desk models having a work surface with a rounded edge on one end where students can pull up a chair for assistance with their work.

Models are available with an 1/8" thick particleboard-core high-pressure laminate work surface with 1/8" profile T-mold edge banding. All desks have a work surface with two grommets, one at each end, except help desks, which have a work surface with one grommet at the rectangular end. Two-drawer (file/file) and three-drawer (box/box/file) unitized pedestals consist of steel components. Pedestals incorporate a drawer interlock system to allow only one drawer per pedestal to open at one time. A core-removable lock secures drawers with one lock assembly ("gang locking"); one lock per pedestal. Riser blocks are made from ABS plastic and include an internal wire management chute; a riser block is situated between the work surface and each end panel or pedestal. Adjustable-height nylon feet.

Optional configurations include standard twin-wheel, locking casters, laminate and fabric screens. The column leg for use with L-configuration workstations having a peninsula return consists of welded steel components and an adjustable-height nylon glide. Metal surfaces are available with a powder coat finish.

FILE CREDENZAS

File credenzas include 32¾" wide (single file credenzas) & 64" wide (double file credenzas) models with two drawer (lateral/lateral), three drawer (file/file/lateral), or four drawer (box/box/file/lateral) configurations. Models are available with an 1½" thick particleboard-core high-pressure laminate top with 1½" profile T-mold edge banding. Tops include threaded inserts for a secure connection to the cabinet. The file credenza's unitized cabinet consists of welded steel components. Lateral drawers incorporate a drawer interlock system to allow only one lateral drawer per unit to open at one time. The file credenzas are equipped with full-suspension steel ball-bearing slides on all file and box drawers. A core-removable lock secures drawers with one lock assembly ("gang locking"); one lock per unit. Riser blocks are made from ABS plastic and include an internal wire management chute; a riser block is situated between the top and each end panel or pedestal. The file credenzas are equipped with full-extension heavy-duty steel ball-bearing slides on all lateral drawers. A counter weight is installed in each unit to help prevent tipping when drawers are fully extended. An optional conversion bar kit, consisting of four powder coated steel bars, enables Parameter file credenza lateral drawers to accommodate legal size and letter size documents from front to back, rather than from side to side. For an optional conversion bar kit, specify model CBKLF. An optional drawer divider kit, consisting of one steel drawer divider, is available to help organize Parameter file credenza lateral drawers. For an optional drawer divider kit, specify model 53LFD. A Keyed-Alike option is available for Parameter file credenzas. By choosing the Keyed-Alike option, customers can purchase lock cores for multiple Parameter file credenza units, and for other selected Virco models with locks, that open by means of a single key. 6000 SERIES FOLDING TABLES

Tubular steel legs. Models are available with a 3/4" particleboard-core top with a fused-on melamine surface and 3/4" profile T-mold edge banding. The folding mechanism includes a gravity-fed safety lock. Because the safety lock is permanently attached, a formed tab on the lock arm permits the hinge to fold in only one direction. Spring clips are formed from tempered steel to accept the cross brace of the leg unit. Each spring clip is housed in an injection-molded polyethylene shell to help protect hands from sharp edges. Each table has two spring clips. Patented steel aprons consist of four machine formed steel segments with no exposed sharp edges. The outer edge is rolled to form a strong and smooth flange. Apron ends are inserted into patented corner supports formed of injection-molded polyethylene which completely enclose the ends of the steel aprons. A high-impact stacking bumper attaches to the outer edge of the corner support to facilitate stacking. Optional configurations include a high-pressure laminate. Metal surfaces are available with a powder coat finish.

CORE-A-GATOR® SERIES FOLDING TABLES

Tubular steel legs. Lightweight folding table with a patented design featuring an ABS plastic top with an innovative three-piece construction. Extruded aluminum U-channels along each edge for added strength. Corners reinforced with four high-impact molded ABS corner protectors. Tables have edge molding around the complete perimeter of the top to serve as an edge protector. Tables have apron bumpers at each corner to protect the top surface during storage. Dual link folding mechanism consists of four steel links that form the folding mechanism. Two links are riveted to the leg assembly and the other two to a mounting bracket on the underside of the table. The two pairs of links provide lateral support when the table is in use and also allow the legs to fold into a closed position. The folding mechanism has an automatic positive locking rod that engages the two pairs of links. The locking mechanism automatically engages when the table is upright. The legs have fitted plastic glides. Metal surfaces are available with a powder coat finish.

62000 SERIES FOLDING TABLES

Tubular steel legs. Models are available with a 3/4" thick plywood-core high-pressure laminate top with 3/4" profile T-mold edge banding. The folding mechanism locks into position with a gravity-fed safety lock. Because the safety lock is permanently attached, a formed tab on the lock arm permits the hinge to fold in only one direction. Spring clips are formed from tempered steel to accept the cross brace of the leg unit. Each spring clip is housed in an injection-molded polyethylene shell to help protect hands from sharp edges. Each table has two spring clips.

Patented steel aprons consists of four machine formed steel segments with no exposed sharp edges. The outer edge is rolled to form a strong and smooth flange. Apron ends are inserted into patented corner supports formed of injection-molded polyethylene which completely enclose the ends of the steel aprons. A high-impact stacking bumper attaches to the outer edge of the corner support to facilitate stacking. Metal surfaces are available with a powder coat finish.

MT SERIES MOBILE TABLES

Tubular steel frame, 29" table height. Tops are available with a 3/4" thick particleboard-core high-pressure laminate work surface with 3/4" profile T-mold edge banding. Optional configurations include surfaces with a urethane-based Sure Edge® finish. Nylon-base self-leveling glides. In the folded position, tables rest on four 3" swivel casters. The tables open and close in one operation. A safety device is built into the folding mechanism to help prevent pinching when tables are opened. A secondary safety release mechanism is incorporated to complete the opening of tables. The center hinge operates vertically in order to self clean and minimize trapping of food. Metal surfaces are available chromed or with a powder coat finish.

Service Life Recommendation: In order to extend the torque life of MT Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.

IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use.

Warranty Note: MT Series tables are covered by Virco's 10-year warranty; however, torsion bars used on these tables are covered by a 5-year warranty. Virco recommends that torsion bars be inspected for torque strength frequently.

Optional Edge Finish: Virco's custom Sure Edge Finish is offered as an option for table tops. The Sure Edge Finish consists of a urethane-based protectant that is bonded chemically to the substrate of the top. The tamper-resistant Sure Edge Finish, applied with an innovative anti-bacterial process for enhanced cleanliness and hygiene, functions as an effective moisture barrier, which seals the substrate of a top between its high-pressure laminate surface and backing sheet. The Sure Edge Finish has no gaps or seams, preventing food particles from lodging in table-top edges. Models with a Sure Edge top finish include the letters AE.

Service Life Recommendation: In order to extend the torque life of MTS Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.

IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use.

Warranty Note: MTS Series tables are covered by Virco's 10-year warranty; however, torsion bars used on these tables are covered by a 5-year warranty. Virco recommends that torsion bars be inspected for torque strength frequently.

PLATEAU® SERIES LIBRARY & TECHNOLOGY TABLES

Models are available with 29" and 39" top heights. Models are available with an 1 1/8" thick particleboard-core high-pressure laminate work surface with 1 1/8" profile T-mold edge banding. A keel is attached where applicable and finished with molded plastic end caps. Legs are constructed of an aluminum die-cast connector, a leg tube, an aluminum die-cast glide insert, and a PVC extruded wire chase assembled to form a sturdy, decorative leg with wire management provisions. An adjustable ABS plastic glide with a 1" range enables table leveling; models ending in C2 have two legs with twin-wheel locking soft casters and two legs with adjustable glides; models ending in C have legs with twin-wheel locking soft casters. Selected work surfaces are equipped with one, two or three ABS plastic grommets measuring 6 1/4" x 3". Each grommet has a removable ABS plastic lid. FURNITURE WITH OAK FINISH

Virco's Oak finish highlights the grain and color accents of each furniture item. Because they're crafted from natural hardwood, no two pieces of Oak furniture have exactly the same grain pattern and color; instead, variations in grain and color result in uniquely complementary furniture groupings.

60", 72" AND 84" BOOKCASES

To avoid the risk of a serious tip-over accident, these bookcases must be securely anchored to a wall. Refer to the assembly instructions for more information.

GUIDELINES FOR STACKING & MOVING FURNITURE

The number of pieces of furniture that can be safely stacked or moved on Virco's mobile storage equipment will vary depending on many factors, including the furniture's height, weight and general design; the speed at which the unit will be moved; the terrain over which it will travel; and the strength of the operator(s). Care should be taken not to stack to the point of unsteadiness. Virco recommends starting with small, easily handled loads and adding one to two pieces of furniture at a time to determine the safe capacity for each set of conditions. Use Virco mobile storage equipment with appropriate Virco furniture only.

VIRCO AND THE ENVIRONMENT

GREENGUARD®

Hundreds of Virco furniture models have earned stringent GREENGUARD® Gold certification (formerly known as Greenguard Children & Schools Program certification) for low chemical emissions into indoor air. When this icon  is shown at the bottom of a page in this price list, all products on that page are GREENGUARD® Gold certified. For the most current listing of Virco's GREENGUARD®-certified products – including models that may have been certified since the publication of this price list – go to www.greenguard.org and click on the Find Products link.

To search the GREENGUARD® Certification Product Guide for Virco's GREENGUARD®-certified products, be sure to search by the series name (for example, ZUMA®) or series number (for example, 3000 Series) rather than by specific model numbers (for example, ZU418 or 3018) since the search function will not recognize Virco model numbers. The GREENGUARD® Certification Product Guide also has printable GREENGUARD® certificates for Virco's GREENGUARD®-certified furniture items. Please note that these certificates refer to Virco product groups (for example, ZUMA® 4-Leg Chairs, ZUMA® Cantilevered Chairs, and ZUMA® Mobile Chairs) rather than to specific model numbers.

As the GREENGUARD® website states, "GREENGUARD Certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emissions of volatile organic compounds (VOCs) into indoor air." To date, over 300 manufacturers – including Virco – provide customers with GREENGUARD®-certified products.

LEED®

Many of Virco's customers are interested in the LEED® program. LEED, which stands for Leadership in Energy and Environmental Design, is a program of the non-profit U.S. Green Building Council. LEED is a well-known standard for environmentally-friendly buildings.

Virco furniture can help you earn points for the LEED for Schools and other rating systems. Hundreds of Virco's GREENGUARD®-certified products can help you earn an Indoor Air Quality (IAQ) credit under the LEED for Schools rating system. Depending on the project, Virco furniture can also help you earn LEED credits for Materials & Resources (MR). ZUMAFrd™ and Virco's other GREENGUARD®-certified products are well suited to green building projects. Virco's Take-Back program can also help reduce the environmental impact of a renovation project.

For any questions about how Virco products can help your building project earn LEED points, please contact your Virco Sales Representative.

WASTEWISE

The U.S. Environmental Protection Agency's WasteWise program -- according to its website -- "helps organizations and businesses reduce waste and practice sustainable materials management through the prevention and recycling of municipal solid waste (common household and business waste) and select industrial materials."

Virco joined the EPA's WasteWise Program as a charter member in 1994. Over the years, we've been privileged to receive a number of WasteWise honors, including: WasteWise Program Champion (1998, 1999 & 2001); WasteWise Partner of the Year for Large Businesses (2000 & 2002); and WasteWise Climate Change Partner of the Year (2002). In 2003, Virco was designated as a charter member of the WasteWise Hall of Fame. In 2019, Virco received a Region 9 EPA Sustainability Award.

If your organization isn't already a member, we strongly encourage you to join WasteWise; information is available at:

<https://www.epa.gov/smm/wastewise>.

TAKE-BACK PROGRAM

Through this ground-breaking program – launched in 2006 – Virco takes back out-of-service furniture from qualifying schools, colleges and universities and recycles the components. Some of this recycled material can then be included in the Fortified Recycled Wood™ that's used to make seats, backrests and work surfaces for our highly sustainable ZUMAFrd™ furniture.

CASH FOR CARDBOARD

Virco's "Cash for Cardboard" Program helps 35 schools near our Conway, Arkansas facility reap the benefits of recycling. Virco builds recycling bins for these schools, collects their cardboard and transports it to a recycling Vendor, then returns the proceeds to the schools. To date, the Cash for Cardboard Program has enabled these schools to earn over \$310,000.
