DATE: September 23, 2014

SUBJECT: Public Depositor's Report

According to Florida Statutes, the School District must file a Public Depositor's Report each November. This report includes the balances of all monetary assets held at the District and at each school as of September 30, 2014. Monetary assets include checking accounts, money market accounts, savings accounts and/or certificates of deposit.

Please send copies of the following documentation to the Finance Department no later than October 15, 2014 (faxed documentation will be accepted if readable):

- Checking, savings, and/or money market account statements as of September 30, 2014 (*front page is sufficient - copies of cleared checks are not needed*)
- Certificates of deposit with documentation indicating the balance as of September 30, 2014

It is not necessary for schools to document SBA account balance information as this information is available at the District level.

Should you have any questions or need additional information, please contact Alice Shannon at 833-5832. Thank you for your assistance in this matter.
